## Health for the Children

Every parent notes with anxious eye the first symptoms of the children's  
failing health: the pale cheek, listless manner and capricious appetite speak more  
plainly than any words, for the well child is a veritable storage battery of animal  
spirits.

Renewing the appetite is the first step back to health and

given faithfully for a short time will do it. The children need not even know  
it is a medicine for the taste is very pleasant and does not suggest cod liver oil  
in the least. But the effect is certain.

For persons of every age Stearns' Wine of Cod Liver Extract is an unfailing  
tonic, appetizer and strength renewer. Get it at your chemist's, and be sure you  
get STEARNS'—the genuine.

## Echoes From the Strike

Philadelphia Press.—There would be  
no thought of trouble with Japan on  
account of the dispute between Japa-  
nese laborers and their employers on the  
Hawaiian sugar plantations if it were  
not for the prevalent notion that Japan  
has its eyes open for an excuse to pick  
a quarrel with the United States.

While it is possible that papers have  
been discovered revealing a conspiracy  
among the Japanese laborers and others  
to wrest control of the islands from the  
white population, it does not follow  
that the government of Japan had any  
knowledge of such a conspiracy or that  
it would think of endorsing it were it  
to take form.

Some Japanese are much given to  
imagining themselves agents to further  
the interests of their country, although  
they may possess no commission or au-  
thority of any kind. So it is possible  
that certain over-zealous representa-  
tives of the race in Honolulu formed  
the brilliant notion that they would be  
serving their country if they undertook  
to overthrow American authority in the  
islands without having any conception  
of what an attempt of that kind would  
involve. But it would be unjust to  
hold the Japanese government responsi-  
ble for any such visionary conception.

The strike of Japanese plantation  
laborers will be settled sooner or later  
by the persons interested; and if during  
its continuance conflicts arise of a  
serious nature, the local authorities  
may be trusted to deal with them in  
whatever way may be proper. There is  
no occasion to drag the national govern-  
ment of either country into the dispute.

Berkeley (Cal.) Independent.—We are  
going to thoroughly enjoy that war  
scare which the Japs are working up at  
Honolulu, the "scare" being largely  
up to the diplomats at Washington who  
were so tender toward the little brown  
heathen during California's troubles  
last winter.

There are about 75,000 Jap laborers  
on the Hawaiian plantations and most of  
them are on strike for more pay. The  
authorities have looted one Jap  
editor's newspaper office and arrested  
some of the strike leaders. There is  
another Jap editor at large who public-  
ly boasts that there is plenty of am-  
munition and arms and plenty of Japs  
to use them in resisting the territorial  
authorities.

The more unruly of the strikers are  
awaiting the arrival of the Jap cruisers  
Aso and Soya before cutting loose with  
their ferocity.

It is possible that this incident will  
be of great benefit to white folks. We  
hope there will be no bloodshed, but it  
has been impossible to reach about 80  
per cent of our nation that there is any-  
thing in the Japanese question beyond  
a little jealousy on the part of laundry-  
men and restaurateurs and a little  
silliness over brown and white associa-  
tion in the schools of San Francisco.

It may be that this Honolulu racket  
will show that the Jap is a calamity to  
his country commercially and indus-  
trially as well as socially. He will not  
assimilate. He is dishonest and un-  
reliable. He is a mere destroyer, like  
the rat. And if Honolulu can give us  
a grand object lesson on these points,  
we'll soon have the Japanese question  
settled, wisely and courageously, in the  
white man's way.

Watsonville (Cal.) Pajaronian.—The  
situation in the Hawaiian Islands with  
several thousand alien insurgents in  
the shape of Japanese strikers threat-  
ening violence, and with the Japanese  
government on edge ready to demand  
indemnity if a hair of the heads of  
one of its citizens is hurt, this country  
is confronted with a perplexing  
problem, the result of permitting an  
influx of foreign coolies in order to  
help out the exploiters of cheap labor.  
As a result of this disturbance in Ho-  
nolulu, the leader of the Japanese  
fanatics is calling on his government  
to demand an indemnity of three mil-  
lion dollars for the alleged invasion  
of the office of a certain Japanese  
newspaper by the sheriff and territorial  
authorities. The situation clearly  
shows that the United States has per-  
mitted to grow up within its borders  
a colony of aliens with foreign cus-  
toms, who are a law unto themselves.  
It is said that there are at present  
within the corporate limits of the city  
of Honolulu two thousand Japanese  
strikers holding meetings daily, march-  
ing from camp to camp, and to the  
courthouse, where four leaders are be-  
ing tried on a charge of conspiring to  
kill Editor Sheba, of the conservative  
Japanese newspaper called "Hawaii  
Shimpo," and also on a charge of in-  
citing riot. Editor Soga of the al-  
leged incendiary newspaper "Nippu  
Jiji," it is said, advises violence and  
declares that there is ammunition  
enough for the strikers to resist the  
police and American authorities, while  
the Japanese consul is denounced as a  
coward. It is easy to see how the  
situation in Honolulu may lead to in-  
ternational complications and this out-  
break is only a suggestion of what this  
country may witness in other places  
if it continues to permit labor exploit-  
ers to import Asiatic coolies or the  
unrestricted immigration of Japanese,  
Chinese and Koreans.

Los Angeles Times.—Mr. and Mrs.  
R. P. Spalding, the latter formerly  
Miss Elsa Behr of this city, will leave  
tomorrow for Kealia, Kauai, of the Ha-  
waiian islands, to be gone until spring.  
Roy Spalding is president of the Ma-  
keke Sugar Company on the Island of Kauai.

"While no Japanese laborers have  
gone on strike on the northern island,"  
said Spalding yesterday, "there is no  
question but that there is imminent  
danger in the Hawaiian group from the  
rapidly-increasing Japanese population  
and growing sentiment of the Japanese  
socialist press. Apparently little is  
thought of the late trouble there by  
the people of this Coast, but on the  
islands there is well-grounded fear that  
some day the Japanese will attempt to  
create a base on the islands and master  
the situation. Of course, that would  
mean war with the United States."

Spalding also spoke of the action of  
the government in allowing thousands  
of acres of government land to lie fall-  
ow when it is adaptable to the grow-  
ing of sugar. The output of sugar on  
the Island of Kauai has fallen off 60  
per cent, because leased lands have been  
called in by the government.

## PARTIAL PARALYSIS

MAY BE ENTIRELY OF A FUNC-  
TIONAL CHARACTER.

It Is Not Necessary to Accept It as  
Hopeless Since There Are Many  
Well Authenticated Cures.

There is absolutely no way of reach-  
ing the nerves with medicine except  
through the blood. The nerves receive  
all of their nourishment and support  
from the blood which, under healthful  
conditions, carries the elements needed  
to rebuild wasted nerve tissue.

Let the blood become deranged and  
deficient in these elements and the  
nerves will be badly nourished and  
headaches, neuralgia, sciatica, function-  
al paralysis and a host of other nervous  
troubles may result.

In severe nervous disorders Dr. Wil-  
liams' Pink Pills have accomplished  
many seemingly impossible cures. Such  
an instance was the cure of Mrs. Eliza-  
beth Stratton, of No. 1126 Dewey ave-  
nue, Beloit, Wis. Mrs. Stratton has liv-  
ed at her present address for the past  
six years and there is no room for  
doubt regarding her statement. She  
says:

"I had been ailing for some time  
through overwork and worry, when my  
right side suddenly became partially  
paralyzed. I could not move for some  
weeks without taking hold of a chair.  
My right leg and arm were affected so  
that I could not use them. My nerves  
were in a terrible state. I shook all  
over and was excited by the least little  
thing. For weeks I could not sleep.  
My appetite was poor and I was a net-  
vous wreck."

"I doctored with local physicians at  
Quincy, Ill., who said I had partial  
paralysis caused by a nervous shock. I  
did get a little relief from them but it  
was only temporary. Through a friend  
I was induced to try Dr. Williams' Pink  
Pills. This was after I had been sick  
for over a year. I was then up and  
around but could not walk. The pills  
soon helped me and finally entirely  
cured me. My daughter also used the  
pills for a run-down condition of the  
blood and they helped her at once."

While so promptly effective, Dr. Wil-  
liams' Pink Pills contain no harmful  
stimulants or opiates. They are per-  
fectly safe and create no drug habit.  
Our booklet, "Nervous Disorders," will
